About Consolidated Tin Mines

Consolidated Tin Mines is an emerging ASX-listed (ASX: CSD) tin explorer and developer. Its major project is the Mt Garnet Tin Project approximately 180km south west of Cairns in northern Queensland, comprised of the Gillian, Pinnacles and Windermere deposits. The project is located in an established mining area, in close proximity to mining and concentrating infrastructure. Consolidated Tin's objective is to develop the project into a major low cost, open pit tin mining operation processing 1Mt per annum to produce approximately 5,000 tonnes p.a. of tin in concentrate, commencing with key deposits, Gillian and Pinnacles. On completion of a favourable DFS later in 2014, Consolidated Tin's strategy will be to develop and establish tin production in 2015 and focus on increasing mine life and production profile by developing other tin production opportunities within the broader Mt Garnet Tin Project area.
